

**AN HUMBLE PRAYER AND PETITION
TO HIS EXCELLENCY**

His Excellency The Honorable Major-General Michael Jeffery AC CVO MC
Governor General of Australia
Government House
Canberra, ACT 2600

MAY IT PLEASE YOUR EXCELLENCY. I know it is my duty to keep you informed as to my will on any matter that comes before the Commonwealth Parliament or that should come before the Commonwealth Parliament.

The Department of Health is in breach of our Commonwealth Constitution in the matter of the enforced toxic industrial fluoridation of our water supply using sodium fluoride, fluorosilicic acid and sodium fluorosilicate.

This breach of the Commonwealth Constitution relates to Chapter 1, Part V - Powers of the Parliament, section 51 (xxiiiA) where it states "Medical and dental services are provided but not so as to authorize any form of Civil Conscription". The enforced toxic fluoridation of the public water supply is civil conscription. Water fluoridation is also in breach of the Nuremberg Code to which Australia is a signatory.

No official referendum has been held on the enforced toxic fluoridation of the public water supply anywhere in Australia. Therefore the Victorian Government may not be protected from litigation in regard to fluoridation, quite contrary to their view.

Face to face community consultation has not been forthcoming in most areas, even when repeatedly requested.

The enforced toxic fluoridation of the public water supply with industrial fluoride is mass medication and is a gross loss of freedom of choice in a free country.

HEALTH ISSUES OF THE INDIVIDUAL ARE NOT TAKEN INTO ACCOUNT.

Many scientific studies have been ignored, such as:

The Basin thesis "Osteosarcoma link (bone cancer)" Causes & Control (2006) 17: p421-428 Harvard University. National Research Council (USA National Academies of Sciences, March 2006) Fluoride in Drinking Water: A Scientific Review of EPA's Standards.

Total fluoride intake is not measured:

In 1994 The World Health Organization (WHO) warned that a total fluoride intake study should be conducted prior to fluoridation of the public drinking water. This warning is being ignored.

Dental fluorosis (from fluoride overdose) is found to affect 45% of children in toxic industrial-fluoridated areas.

On 12/8/1987, as recorded in Hansard, Mr Harley Rivers Dickinson, read the Dickinson Report to the Commonwealth Parliament making Parliament aware of the dangers of water fluoridation (both physical and mental).

Industrial fluorides are not the same as the naturally occurring calcium fluoride which is virtually free of heavy metals and arsenic.

Therefore:

IT IS MY WILL: that all water fluoridation in Australia be stopped and remain stopped until such time as there is a full, independent, comprehensive, Scientific Review on the impact toxic industrial fluoridation of the public water supply has on human health.

IT IS MY WILL: that such Scientific Review be conducted by an independent body followed by the release of all scientific and medical findings to the public.

IT IS MY WILL: that fluoride be made available to the public by other means that do not violate the individuals' right to choose their own medication or breach our Commonwealth Constitution.

I do most humbly and respectfully Pray and Beseech Your Excellency to convey MY WILL to both Houses of the Australian Parliament.

I remain Her Majesty's respectful servant.
GOD SAVE THE QUEEN!
